

Neon -- John Mayer

From *Room for Squares* (2001). About 104 BPM, est.

Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

A syncopated, funky pocket that locks with the guitar's thumb-slapped bass notes. Punchy and articulate, clean.

Built from the song's overall sound. I haven't verified the exact bass rig on the record.

Fingers, J-forward blend for articulation. Tone knob around 60%.

AMP: Mess Bass (Mesa Bass 400) + CAB: EBS410 IR (User IR 4)

A full-range Bass 400 clean with EBS410's 2-3kHz clarity. Syncopated ghost notes and articulation read clearly.
