

(I've Had) The Time of My Life -- Bill Medley & Jennifer Warnes

From the *Dirty Dancing* soundtrack (1987). About 108 BPM, est.

Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

The low end on the record is punchy late-80s pop. I'm not sure how much of it is synth bass and how much is electric. Either way the target is bright, tight, and punchy, with a polished chorus lift.

Fingers or pick. Both pickups up, J forward. Tone knob around 70%.

AMP: Mess Bass (Mesa Bass 400) + CAB: EBS410 IR (User IR 4)

A full-range Bass 400 clean into EBS410's 2-3kHz clarity bump. That's a polished, modern-for-1987 pop bass that cuts through dense keys.

Module chain

NR -- Gate, always on.

THRE: 14.

Tight stops.

PRE -- COMP4 (Keeley C4), always on.

Sustain: 50, Attack: 45, Clip: 40, VOL: 58.

80s-level compression. Every note is even and punchy.

DST -- off. No drive. It's a clean pop tone.

AMP -- Mess Bass, always on.

Gain: 22, VOL: 65, Bass: 55, Middle: 50, Treble: 58.

Bright, full clean.

CAB -- User IR 4 (EBS410), always on.

VOL: 60.

EQ -- Bass EQ 1, always on.

33Hz: +1, 150Hz: +1, 600Hz: -2, 2kHz: +2, 8kHz: +1, VOL: 52.

The 600Hz scoop and 2kHz lift give the polished 80s pop curve.

MOD -- B-Chorus (Boss CEB-3), on CTL.

Depth: 20, Rate: 0.8, VOL: 55.

A light bass chorus for the choruses. It's a period-correct 80s sheen with a light hand. Depth 20.

DLY -- off.

RVB -- Plate, on CTL.

Mix: 12, Decay: 35, Damp: 55, Trail: on.

A small plate so the bass joins the big chorus.

CTL footswitch

On CTL: MOD (B-Chorus), RVB (Plate).

- **CTL off** -- Verses. Tight, dry, punchy. This is the resting state the patch loads into.
- **CTL on** -- Choruses and the finale. A light chorus and plate for the big 80s lift.

Engage at each chorus and hold through the key-change finale.
