

You Don't Know How It Feels -- Tom Petty

From *Wildflowers* (1994). About 92 BPM, est.

Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

A deep, relaxed pocket under a dry groove. The bass is round, warm, and sits behind the beat. Nothing flashy.

Built from the song's overall sound. I haven't verified the exact bass rig on the record.

Fingers over the neck. P pickup soloed. Tone knob around 40%.

AMP: Classic Bass (Ampeg SVT) + CAB: Apg115 IR (User IR 1)

The B-15's round, woody thump is the classic organic-record bass sound. It suits Rubin's natural production.
