

Rainbow Connection (Rhythm Guitar) -- Kenny Loggins

Kenny Loggins' version, from *Return to Pooh Corner* (1994). The song is by Paul Williams and Kenneth Ascher, and Kermit sang it first in 1979. About 72 BPM, est.

A gentle, acoustic-leaning lullaby. There's no real electric guitar part to copy, so this patch gives the Strat an acoustic-adjacent role: soft, fingerpicked, warm, and lightly shimmering.

Instrument: Stratocaster (HSS). Neck pickup, fingers, guitar tone knob around 6. Fingerpick the arpeggios. The patch is built to feel like a nylon or steel-string stand-in.

GP-5 only, Stratocaster (HSS), no pedalboard.

AMP: Dark Twin + CAB: EVM112 IR (User IR 5)

A big-headroom Twin on the neck pickup, fingerpicked, is as close as a Strat gets to an acoustic's soft attack. The EVM112's flat response keeps it natural.

Module chain

NR -- Gate, always on.

THRE: 10.

Very low. Fingerpicked notes need to fade naturally.

PRE -- COMP (Ross), always on.

Sustain: 42, VOL: 55.

Compression evens out fingerpicking and adds an acoustic-like sustain bloom.

DST -- Green OD (TS-808), on CTL.

Gain: 12, Tone: 50, VOL: 68.

Almost no drive at Gain 12. It's a level and warmth lift so the melody sings over the arpeggios.

AMP -- Dark Twin, always on.

Gain: 25, VOL: 62, Bass: 50, Middle: 45, Treble: 52, Bright: on.

Clean, warm. Bright on to restore the string detail an acoustic has.

CAB -- User IR 5 (EVM112), always on.

VOL: 60.

EQ -- Guitar EQ 2, always on.

100Hz: -1, 500Hz: -2, 1kHz: 0, 3kHz: +2, 6kHz: +1, VOL: 50.

A 500Hz dip removes electric boxiness. The 3kHz and 6kHz lift adds acoustic-like air and string detail.

MOD -- A-Chorus, always on.

Depth: 14, Rate: 0.5, Tone: 55.

A light chorus, Depth 14. A soft shimmer that hints at a doubled acoustic.

DLY -- Tape, on CTL.

Mix: 16, Time: 420ms, F.Back: 22, Trail: on.

Soft tape echo behind the melody.

RVB -- Hall, always on.

Mix: 24, Decay: 50, Trail: on.

A warm hall for the dreamy lullaby space.

CTL footswitch

On CTL: DST (Green OD, level lift), DLY (Tape).

- **CTL off** -- Rhythm. Soft fingerpicked arpeggios. Warm, airy, lightly shimmering. This is the resting state the patch loads into.

- **CTL on** -- Lead. A slight lift plus tape echo for playing the vocal melody on guitar.

Engage CTL to take the melody. Off to accompany.
