

Spider-Man: The Animated Series Theme (1994) -- Joe Perry

Main title theme from *Spider-Man: The Animated Series* (Fox Kids, 1994-1998). Driving hard-rock tempo, est. Performed by Joe Perry of Aerosmith. Songwriting credits vary by source, so treat the credit line as approximate. Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

The bass locks to the riff and the kick: driving eighths with the guitar hits stabbed in unison. The target is a 90s hard-rock tone: picked, bright, and a little growly, so it reads through a loud Marshall guitar.

Use a pick. Blend both pickups with the J slightly forward for bite. Tone knob fully open.

AMP: Classic Bass (Ampeg SVT) + CAB: Hartke410 IR (User IR 6)

An SVT with some grit is the hard-rock default.

Hartke410's aluminum cones are bright and aggressive. The loaded-IR notes pair it with a driven bass tone, and that's exactly the job here: the pick attack cuts through the guitar wall.

Module chain

NR -- Gate, always on.

THRE: 20. Keeps the stops in the riff clean with the amp gain at 40.

PRE -- COMP4 (Keeley C4), always on.

Sustain: 45, Attack: 50, Clip: 40, VOL: 58.

Evens out picked eighths. Attack 50 lets the pick transient through so the riff hits stay punchy.

DST -- Bass OD, on CTL.

Gain: 40, Blend: 40, VOL: 55, Bass: 50, Treble: 55.

Extra growl under the lead melody sections. Blend 40 keeps the clean low end solid.

AMP -- Classic Bass, always on.

Gain: 40, Bass: 55, Middle: 58, MidFreq: 800Hz, Treble: 55, VOL: 64.

Gain 40 gives SVT hair on the base tone. The 800Hz mid push adds the bark that cuts through.

CAB -- User IR 6 (Hartke410), always on. VOL: 60.

EQ -- Bass EQ 2, always on.

50Hz: 0, 120Hz: +2, 400Hz: -2, 800Hz: +2, 4.5kHz: +1, VOL: 52.

Punch at 120Hz, a mud cut at 400Hz, bark at 800Hz, and a touch of pick click at 4.5kHz.

MOD -- off. DLY -- off. RVB -- off. Dry and in your face.

CTL footswitch

On CTL: DST (Bass OD).

- **CTL off** -- The main riff. Gritty picked SVT. This is the resting state.

- **CTL on** -- Lead-melody sections and the big ending hits. Bass OD growl fattens the bottom while the guitar goes to lead.

Engage it when the guitar kicks into the melody. Drop back for the riff.
