

Only in America -- Brooks & Dunn

From *Steers & Stripes* (2001). About 120 BPM, est.

Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

An anthem groove: driving eighths on the root, big on the chorus. The tone needs rock weight but should stay clean-ish.

Built from the song's overall sound. I haven't verified the session bassist's exact rig.

Pick or fingers. A pick suits the driving eighths. Both pickups up. Tone knob around 60%.

AMP: Classic Bass (Ampeg SVT) + CAB: Apg810 IR (User IR 3)

The classic SVT/8x10 rock rig. It has the weight for an arena-rock chorus.

Apg810 is the direct pairing for Classic Bass.

Module chain

NR -- Gate, always on.

THRE: 14.

Catches hum on the stops.

PRE -- COMP (Ross), always on.

Sustain: 42, VOL: 58.

Holds the driving eighths even.

DST -- Bass OD, on CTL.

Gain: 28, Blend: 30, VOL: 55, Bass: 50, Treble: 50.

Grit for the big choruses. Blend 30 keeps the low end clean.

AMP -- Classic Bass, always on.

Gain: 32, Bass: 55, Middle: 56, MidFreq: 450Hz, Treble: 50, VOL: 65.

A little SVT hair at gain 32. The 450Hz mids give note body.

CAB -- User IR 3 (Apg810), always on.

VOL: 60.

EQ -- Bass EQ 2, always on.

50Hz: +1, 120Hz: +2, 400Hz: -1, 800Hz: +2, 4.5kHz: -1, VOL: 52.

Weight at 50Hz and 120Hz, mud cut at 400Hz, attack at 800Hz.

MOD -- off.

DLY -- off.

RVB -- Room, on CTL.

Mix: 12, Decay: 28, Trail: on.

A small room so the bass joins the big chorus. Mix 12 stays tight.

CTL footswitch

On CTL: DST (Bass OD), RVB (Room).

- **CTL off** -- Verses. Clean, driving SVT. This is the resting state the patch loads into.
- **CTL on** -- Choruses. Light grit plus a small room for the anthem lift.

Engage at each "Only in America" chorus. Step off for the verses.
