

Honky Tonk Truth (Rhythm Guitar) -- Brooks & Dunn

Released in 1997 as a single from *The Greatest Hits Collection*. About 160 BPM, est.

A fast, rowdy dancehall number. Snappy twang rhythm, chicken-pickin', and a hot solo.

Built from the song's overall sound. I haven't verified the exact guitars and amps on the record.

Instrument: Stratocaster (HSS). Position 2 (bridge+middle) for the rhythm. Bridge humbucker for the solo.

GP-5 only, Stratocaster (HSS), no pedalboard.

AMP: Bellman 59B (Bassman Bright) + CAB: EVM112 IR (User IR 5)

A '59 Bassman bright channel is snappy and punchy with a bit of hair. It's tighter than the tweed on Hard Workin' Man, which suits the faster tempo.

EVM112 is the loaded guitar cab with a flat, hi-fi response. It keeps Nashville clean tones honest and doesn't add V30 honk.

Heavy-ish compression for the chicken-pickin' snap. Attack 45 keeps the pick click.

A 90ms slap for the classic country double.

A dash of spring.

CTL footswitch

On CTL: DST (Green OD).

- **CTL off** -- Rhythm. Snappy, compressed Bassman twang with slap for the chucking and fills. This is the resting state the patch loads into.

- **CTL on** -- Lead. Green OD into the Bassman for the solos.

Engage CTL for the solos. Stay off for the rhythm.
