

All for You -- Sister Hazel

Bass: Harley Benton P/J, 5-string, passive. GP-5 only.

From *...Somewhere More Familiar* (1997), ~100 BPM.

Warm, sunny, feel-good 90s alt-rock -- jangly acoustic-driven guitars, an easy, welcoming groove. Jett Beres's bass job here is to stay warm and supportive, holding the song's relaxed energy together. It's a pretty consistent, upbeat tune throughout, with a small lift into the "all for you" chorus hook.

CTL off = the main verse groove. CTL on = a gentle lift for the chorus hook.

GP-5 settings

Module order: NR -> PRE -> DST -> AMP -> CAB -> EQ -> MOD -> DLY -> RVB.

NR -- Gate

- THRE: 12
- Always on. Very low threshold -- clean, warm tone throughout, nothing to clean up.

PRE -- Micro Boost -- On CTL

- Gain: 45
- CTL off: bypassed (verse). CTL on: engaged (chorus hook).
- A gentle push for the hook -- this song stays warm and easygoing throughout, so the lift stays subtle rather than dramatic.

DST -- Off

- No drive. Clean and warm from top to bottom.

AMP -- Match CL (Matchless Chieftain, Clean)

- Gain: 32, PRES: 55, VOL: 65, Bass: 56, Middle: 54, Treble: 54
- Always on, same for both CTL states.
- A warm boutique clean voicing with a bit of natural push -- fits the sunny, welcoming character of this song well, giving it some life without ever pushing toward grit.

CAB -- User IR 2 (Apg115410)

- VOL: 58
- Always on, same for both CTL states.
- Summed Ampeg Heritage B-15 + HLF 410 -- flat, full-bodied, and uncolored, letting the Match CL's own warmth come through without adding its own character on top.

EQ -- Bass EQ 2

- 50Hz: +3, 120Hz: +1, 400Hz: 0, 800Hz: +2, 4.5kHz: +2, VOL: 55
- Always on, same for both CTL states.
- A gentle, mostly-flat curve -- warmth and a touch of presence in equal measure, nothing carved out hard. This part just needs to sit comfortably under the jangly guitars.

MOD -- Off

- No modulation. Direct and warm -- this song's character comes from the amp and the song itself, not an added effect.

DLY -- Off

- Not used.

RVB -- Room -- On CTL

- Mix: 18, Decay: 28, Trail: On
- CTL off: bypassed (verse -- clean and direct). CTL on: engaged (chorus hook).
- A light touch of room opens things up for the sing-along hook, matching the song's easy, warm lift there.

CAB IR -- Apg115410 (Slot 2)

- Summed Ampeg Heritage B-15 + HLF 410, confirmed loaded on User IR slot 2. Flat, thunderous response -- a solid, uncolored foundation.
- Encoded directly into the `.prst` as a real, active CAB reference (`User IR 2`) -- no manual loading needed for this one.

CTL summary

- **CTL Off -- Verse.** Warm, relaxed, sitting comfortably under the acoustic-driven groove.
- **CTL On -- Chorus hook.** A gentle boost and a touch of room lift the "all for you" hook just slightly above the rest.
- Engage CTL for the hook line, back off returning to the main verse feel.

Note on GP-5-only

This patch is GP-5 only -- no pedalboard beyond the Valeton GP-5 itself. All the tone comes from the GP-5's own modules above.
