

Found (The Unexpected Flaw of Searching) -- Riverside

Riverside, from Love, Fear and the Time Machine. BPM est. Lighter, more open, art-rock feel. The bass is clear and melodic with some air. Built from the band's general sound; exact rig on the recording not verified. GP-5 only, P/J bass, no pedalboard.

Module chain

NR -- Gate, always on.

THRE: 10.

Clean tone. 10 is barely there.

PRE -- COMP, always on.

Sustain: 40, VOL: 58.

Light leveling. Keeps the melodic lines even.

DST -- Bass OD, on CTL.

Gain: 25, Blend: 38, VOL: 60, Bass: 48, Treble: 50.

Chorus push. Blend 38 keeps clarity.

AMP/CAB -- NAM SnapTone, slot 56: ProgSVT (always on)

- Built from the `SVT CLEAN PUSHED (SVT-CL)` NAM and the Mesa215 IR, combined into one snaptone.
- Real Ampeg SVT-CL on the clean-pushed setting, into the Mesa215 2x15 IR.
- Duda's prog bass: mid-forward with a bit of grit. Pushed SVT into the Mesa 2x15.
- Gain: 40, VOL: 50, Bass: 55, Middle: 52, Treble: 48
- Gain 40: noticeably under default. This part wants less push than the other ProgSVT patches.
- Bass 55: a touch more low end.
- Middle 52: a touch more midrange.
- Treble 48: top end pulled back a little.
- VOL 50: the default. Trim here if the patch jumps in level against your others.
- Same in both CTL states. AMP and CAB are off in the `.prst`, so nothing stacks on the capture. The N->S block calls slot 56 directly.

EQ -- Bass EQ 2, always on.

50Hz: +2, 120Hz: +2, 400Hz: 0, 800Hz: -1, 4.5kHz: +1, VOL: 50.

Near flat. Small low lift, tiny top lift for air.

MOD -- B-Chorus, always on.

Depth: 14, Rate: 0.7, VOL: 50.

Light hand. Depth 14, Rate 0.7Hz. Adds width, stays under the note.

DLY -- off. No delay.

RVB -- Hall, on CTL.

Mix: 16, Decay: 38, Trail: off.

Adds size for the chorus lifts.

CTL footswitch

On CTL: DST (Bass OD), RVB (Hall).

- **CTL off** -- Verses. Clean, clear, slightly chorused, dry. This is the resting state the patch loads into.
- **CTL on** -- Chorus and build sections. Light Bass OD and a hall lift.

Engage CTL for the chorus lifts. Back off for verses.
